

Forklift Rotator

Forklift Rotator - There are different applications available for lift truck attachments. For instance, the forklift rotator could help moving, rotating, and lifting barrels and drums. Various accessories can be used to pick up carpet rolls and cartons, for dumping waste materials or sand. Some of the most commonly used forklift attachments are the clamp, side shifter attachments, fork positioner and rotator. These tools come in a variety of measurements to fit different forklift units. They are designed to hold heavy items and are a benefit to numerous factory and warehouse settings.
